RECENT NOVELTIES OF SPECIAL INTEREST FOR 1962/63

Aster dwarf double Garden Pride

a dwarf Aster of Princess-type. Height 10 in. (25 cm). Colour coppery-scarlet. Very early in bloom. Excellent for edging, borders, pots and window-boxes. See page 7.

Price \$ 40.— per lb. \$ 3.60 per oz.

Aster Leuchtfleur (Beacon) Bouquet

a very good upright wilt-resistant Aster developed for the cutflower market. Height 24 in. (60 cm). Color brilliant coppery-scarlet. Fully double 3 in. blooms at the top to be cut as one bunch. Same color as the well-known Princess-Aster Scarlatto (Red Edelstein). See page 10.

Price \$ 40.— per lb. \$ 3.60 per oz.

Aster Ball Pink Lady

a new wanted colour between rose and pink. Fully double 3 to 4 in. blooms with wide incurved petals. Long clean stems. See page 12.

Price \$ 12.— per lb. \$ 1.10 per oz.

Calendula Golden Emperor

The finest rich golden-yellow Calendula we have ever seen. Very large double flowering blooms, up to 5 in. in diameter and borne on solid stems. Most excellent for cutting. See page 16.

Price \$ 4.40 per lb. \$ 0.40 per oz.

Campanula Medium Bells of Holland

a recent introduction of dwarf (16 in./40 cm) Canterbury Bells. Nice bedding strain, especially for small gardens. The mixture contains shades of blue, mauve, rose and white. See page 17.

Price \$ 14.— per lb. \$ 1.26 per oz.

Cineraria grandiflora nana early flowering, mixed

An extremely earlyflowering strain which has been specially bred for compactness of habit, earliness and small foliage. Height 6/8 in. (15/20 cm). Recommended for culture in 4 in. pots. See page 22.

Price \$ 18 per 1/8 oz. \$ 5.— per 1/32 oz.

Cosmos Collarette

An early, semi-double flowering Cosmea. Very nice cutflower and border plant. Available in crimson, rose and white. See page 24.

Price \$ 35.— per lb. \$ 3.20 per oz.

Nasturtium Salmon Baby

A dwarf double flowering Nasturtium of glowing deep salmon-rose color. Magnificent strain for bedding, borders and boxes. Compact habit. Freely borne flowers. See page 42.

Price \$ 18.— per lb. \$ 1.64 per oz.

Petunia F₂ multiflora (second generation hybrids)

We bring this year two *Petunia F₂ Multiflora* mixtures. Only those *F₁* varieties which have proved to be uniform in height and plant spread in the *F₂* generation, are used for planting stock. Consequently the mixtures are of even plant habit. These *Petunias* have hybrid vigour and reproduce uniformly large blooms of 2 to 3 in. across.

See page 48.

Prices: Colorama mixed \$ 3.20 per oz.

Four Star mixed \$ 4.30 per oz.

Rudbeckia Gloriosa double Golden Daisy

This is a giant hybrid tetraploid *Rudbeckia* and it brings rich golden-yellow double and semi-double flowers of 5 in. across with dark brown eyes on strong stems of 30 in. (75 cm).

See page 53.

Price \$ 24.— per lb. \$ 2.20 per oz.

Salvia Splendens Hot Jazz

New dwarf variety (12 in./30 cm) earlyflowering. The spikes are shorter than those of *Scarlet Piccolo* and *St. John's Fire*. However, the spikes are more numerous and they bring a very large number of vivid scarlet flowers. The dark green foliage contrasts harmoniously with the vivid red flowers. Especially for countries with tropical and sub-tropical climate.

See page 54.

Price \$ 30.— per lb. \$ 2.70 per oz.

Sweet Basil (Ocimum basilicum) Dark Opal

Something new of dual purpose. Both for the kitchen and the flower garden. All-America Selection award winner for 1962. Interesting and decorative as a foliage plant, besides its natural use as a herb. Small lavender-white flowers on slender spikes make a striking contrast to the dark purplish bronze foliage.

See page 58.

Price \$ 8.20 per oz. \$ 1.30 per 1/8 oz.

Sweet William Herald of Spring (Messenger) mixed

This mixture is of particular interest to the commercial grower as it flowers a fortnight earlier than any other strain of *Sweet William*. It is a single flowering mixture with plenty of red colors.

See page 61.

Price \$ 4.— per lb. \$ -.36 per oz.

Zinnia Thumbelina mixed

All-America Selection Gold Medal Winner 1963. Of dwarf neat habit, only 6 in. (15 cm) high, covered with double and semi-double 1¼ to 1½ in. flowers in white, yellow, pink, lavender, orange and scarlet. It is early to bloom and will stay attractive throughout the summer till early frost, without a bit of special care. Seed will become available after harvest of the 1962 crop (December).

See page 67.

Price \$ 11.— per oz.

Zinnia haageana Old Mexico

This tetraploid *Zinnia* is of the same family as *Persian Carpet*, but it has larger blooms of about 2 to 3 in. across. The flowers are bicolor with the main petal area deep mahogany red and with the petal edges and tips overlaid with shades of gold. Resistant to mildew.

See page 67.

Price \$ 65.— per lb. \$ 6.— per oz.

Zinnia Thumbelina

Quantity-price-scales

The lb. rate will apply to quantities of $\frac{1}{4}$ lb. and more. The oz. rate, where quoted, will not apply to quantities of less than $\frac{1}{4}$ oz. A pro rata increase will be made for smaller quantities than $\frac{1}{4}$ oz.

Minimum-price pro item is \$ 0.30. In case the oz. price would be less than \$ 0.30 the oz. price is left blank. Of course you can order any quantity you like, but it will be charged for at least \$ 0.30.

Aster semi-dwarf and tall double varieties

⊙ ASTER EARLY CHARM (18 inch, 45 cm)
wilt resistant

very earlyflowering and of same type and habit as Early Wonder. However, Aster Early Charm will produce, if grown on dry and sandy grounds, better and longer stems than Early Wonder. We shall substitute the Early Wonder in separate colours by Early Charm in the course of the next few years.

per lb. per oz.

..... choice mixed	12.—	1.08
------------------------------	------	------

⊙ ASTER EARLY WONDER (14 inch, 35 cm)
very early flowering, wilt resistant

☺ PANSY AALSMEER GIANT

U.S. Dollars
per lb. per oz.

..... Aalsmeer Giant, choice mixed; the most early flowering strain of giant Pansies	18.—	1.64
---	------	------

☺ Pansy Early Giants

a very early flowering strain of Pansy of clear colours without blotch. The size of the bloom is between the Pansy hiemalis and the Pansy Swiss Giant. Sturdy plants 6 to 7 inches tall, produce uniform large flowers. It is a free-flowering strain and the habit of the plants is compact.

⊙ STATICE SINUATA PACIFIC STRAIN

per lb. per oz.

Distinct improvement of the common types of Statice sinuata. The growth of the plant is very vigorous and robust. Produces large flowers on long and solid stems. Ideal cutflower for market. We have abandoned the old range of Statice sinuata, in favour of the Pacific Strain, this being far superior in every respect.

Stocks, 100% double strain

The great advantage of the 100% double strains is that the single-flowered and double-flowered plants can be selected in the seedling stage by the colour of the foliage. The light green will produce double-flowering and the dark green single-flowering plants. Keep temperature 50 deg. F. until seedlings can be segregated. The difference can not be seen at higher temperatures. Grow on after transplanting the light green plants at normal temperature.

TERMS AND CONDITIONS.

All orders on growing crops are accepted subject to crop-success. Crop-failure releases us entirely from delivery. - Should the outcome of the crop be lower than our estimation, orders will be filled pro rata only.

Delivery f.o.b. Enkhuizen / Amsterdam / Rotterdam.

Prices are quoted in U.S.A. currency (Dollars and Cents) and they are subject to alteration without notice. Any important fluctuation of the rate of exchange between U.S.A. \$ and dutch Guilder will carry a revision of the prices.

Bags and packing will be charged for at current cost and are not returnable.

Freight or, if shipped by mail, postage charges will be debited at cost.

Marine insurance will be effected by us and premium debited at current rates, unless instructions to the contrary are received.

Forwarding instructions should be sent with orders. - In the absence of instructions we shall select the best way we know, but entirely at the risk of the buyer. - Should the fulfilment of any order be prevented or delayed on account of war, blockade, revolution, prohibition of exports, strike, fire or any other contingency beyond our control, we shall not be responsible for any loss and/or damage thereby.

The amounts of our invoices are payable at Enkhuizen in U.S. Dollars. On overdue account an interest of 6% per annum will be charged.

Notwithstanding any specified stipulation in the contract, seller has the right, which he can exercise at all events and at any time, of demanding cash payment before delivery.

Purchasers' **claims** for shortage of deliveries must be made to seller immediately on receipt of shipment (within 6 days after arrival).

Complaints about germination must be reported within 45 days after arrival of the seeds at destination.

Although we always do everything in our power to supply seeds of best quality in every respect, we can give no warranty, expressed or implied, as to the description, productiveness or any other matter of any seeds we send out and we shall in no way be responsible for the crop. We shall give full consideration to well-founded complaints but restitution, if any, is limited to our invoiced value.

By placing an order our customers agree to the terms and conditions stipulated above.

Quantity Price Scales:

The lb rate, where quoted, will apply to quantities of $\frac{1}{4}$ lb and more. The oz. rate will not apply to quantities of less than $\frac{1}{4}$ oz. A pro rata increase will be made for smaller quantities than $\frac{1}{4}$ oz.

Minimum charge per item: 30 dollarcents
